EXPERIENCE

- **Brillioz Infotech**

July 2024 - Current
Pune, India

Data Analyst

- Developed automated dashboards and reports using Python, SQL, and Excel, reducing manual reporting time by 40% .
 - Implemented data preprocessing pipelines using Pandas and NumPy, enhancing quality and consistency by 55%.
 - Conducted exploratory analysis on EDA on customer and transaction data , identifying key trends in user behavior and product performance.
 - Presented insights in monthly data review meetings , leading to data-driven decisions that improved operational efficiency 15% .

PROJECTS

- **Project 1: Swift Comet**

July 2024 – Present

Tools: Python, SQL Server, Excel, Power BI, Pandas, NumPy

- Developed a dynamic Power BI dashboard to visualize key metrics such as revenue trends, product-wise performance, and regional growth.
 - Cleaned and transformed raw sales data using Python (Pandas) and SQL to ensure accuracy and consistency.
 - Delivered monthly insights to management, leading to improved focus on underperforming regions and a 12% sales increase in Q2.
 - Analyzed user interaction data using SQL and Python to derive actionable UI/UX insights, reducing checkout abandonment.
- **Project 2: Multi-Vendor Marketplace**

2023 – 2024

Tools: Python, SQL, ML Algorithms, API Management

- Developed a secure login & authentication module using JWT, improving application security and reducing unauthorized access issues.
 - Built a ReactJS admin dashboard with tables, filters, pagination, charts, and CRUD operations for vendors and stock.
 - Implemented role-based access control (Admin, Operations, Vendors) for protected routes. .
 - Developed a secure login & authentication module improving application security and reducing unauthorized access issues.

KEY COMPETENCIES

- **Data Cleaning & Transformation** – Used Python (Pandas) and SQL to preprocess and clean raw business data for analysis.
- **Exploratory Data Analysis (EDA)** – Conducted EDA to identify trends, anomalies, and business insights that informed decisions.
- **Dashboard Development** – Built dynamic dashboards using Power BI to visualize KPIs, sales, and marketing metrics.
- **KPI Tracking & Performance Monitoring** – Defined and tracked KPIs for marketing and sales teams to measure campaign effectiveness.
- **SQL Data Extraction** – Wrote complex SQL queries to fetch and manipulate data from relational databases.

SKILLS

- **Programming Languages**: Python,C++,C, JAVA,HTML,CSS,SQL,JAVASCRIPT, JWT
- **Tools & Platforms**: MSSQL, MYSQL,VS Code,Git,PwerBI,Excel
- **Web Development**:HTML,CSS,ReactJS, Flask
- **Libraries**: Pandas,NumPy,Matplotlib,Scikit-learn

CERTIFICATIONS

- **Google Data Analytics Certificate – Process Data from Dirty to Clean** (Google)

Nov 2023
- **Google Data Analytics Certificate – Foundations: Data, Data, Everywhere** (Google)

Oct 2023
- **Google Data Analytics Certificate – Prepare Data for Exploration** (Google)

Oct 2023
- **Google Data Analytics Certificate – Ask Questions to Make Data-Driven Decisions** (Google)

Oct 2023

EDUCATION

- **B.Tech in Computer Science Engineering** from Techno India University, Kolkata

2020–24
- XII – 72.4%

2019
- X – 8.8 CGPA

2015
